Message from the Chairman

Dear Parents, Students & Our Well Wishers,

Greetings to you all from GMPS, Naraina Vihar

Every time I hear the word, 'school', it reminds me of the most prestigious responsibility that I am shouldering. Schooling for every individual is the first contact with the outside world, a period of joy, a platform for healthy competitions, a stage to shrug off fears, a place to learn adjustments, to share and to love one another in spite of our individual differences. It is not only the classrooms, libraries and playgrounds that make a school but the values nurtured and inculcated that stand as the true essence of an institution. GMPS is oriented to the holistic development of each and every student and we are proud of the fact that every Gyanodian is a keen learner, growing up to become a responsible member of the society. The highly trained and experienced teachers of GMPS make sure that the students imbibe in them learning outcomes in terms of quality content, critical and analytical skills, moral values and preservation of nature and culture for their better future. In this context I take the opportunity to thank each one of you for bestowing your trust on us.

At the end I would like to say that we are successfully making a difference in the community we are supporting, through our quality education.

Congratulations on bringing this edition of the e-magazine.

From the Principal's Desk

Dear Parents, Children and Well Wishers!

Your dreams and aspirations are the road maps that guide you and show you what is possible in your life..... Les Brown

I take this opportunity to begin with the words that have a message for the entire learning community, **“Education is about awakening –Awakening to the power and beauty that lies within all of us.”**

Undoubtedly, the community of teachers and the students across the globe has affirmed to be in the possession of the highest degree of togetherness in this teaching learning scenario. Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. Our school is oriented towards the total formation of a child and to adapt to various methods suiting the dynamics of the changing world in order to achieve the desired goals and objectives. Our school envisions in giving the students an all-round capability including creativity, observation and knowledge empowerment leading to the generation of excellent performing citizens and a sterling character.

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover something.

That little extra we do, is the icing on the cake. ‘Do more than belong –Participate whole heartedly. Do more than just care – Help genuinely. Do more than believe – Practice patiently. Do more than be fair – Be Compassionate. Do more than just to forgive – Forget and embrace with an open heart. Do more than dream –Work hard and make that difference!

The classrooms, the corridors and the playgrounds break their silence every morning with the effusive voice of our loving children. Helping these children both academically and emotionally is the top most priority of the school and teachers. Our staff members fruitfully employ two diverse strategies that are of Love and Logic to foster a positive learning environment for all our students.

We believe in upholding high standards with an absolute commitment to strive to understand and improve the educational process, using team strategies, while wholly centering on students' achievement.

Parents and teachers together should join hands to bring students out of their shell of anxiety, fear and insecurity and restore confidence in them for a better and brighter future. The key to all problems is to march ahead with confidence. In spite of the challenges we face, we must stay focused and try to bring a smile on our faces, ignite our curiosities and continue our journey of exploring different ways to solve every problem we face.

With this renewed hope and optimism I wish you all a very happy, healthy, successful and prosperous session 2023-24.....

Jai Hind !

Rajesh BanoPreeya

Vice Principal speaks.....

"Success is the sum of small efforts, repeated day in and day out....."
-Robert Collier

We are fast progressing towards the end of another academic session. It is again that time of the year when our prime goal is to remain focused on assiduous academic endeavours. The teachers and the students, together, are diligently preparing themselves to give a positive closure to the academic session. Our students are in their top notch form and will no doubt give their best in everything they do. It is always essential to maintain a sense of calm, patience and perseverance while dealing with situations especially during the examination season.

It is a well known fact that the present generation has got used to obtaining quick fix solutions to almost every task at hand, through the use of gadgets and gizmos. It has resulted in a paradigm shift in the teaching learning process and has made our teachers and students better skilled to handle any future challenges. We at GMPS, strive at maintaining a healthy learning environment for our children and help them grow into rational human beings.

Happy Journey.....

Editors' note

"The will to win, the desire to succeed, the urge to reach your full potential... are the keys that will unlock the door to attain excellence."

Dear Readers

Greetings of the Day!

It gives the team immense pleasure in bringing out this edition of the e-magazine. Extracting talents, ideas and skills from students in a variety of ways has always been the motto of the school as it firmly believes in the maxim, 'Every child cannot learn the same way or the same day but every child can learn something everyday'. Young students' learning to blend with knowledge, wisdom, values and integrity at the very outset of the schooling years is indeed imperative. We, as a team at Gyan Mandir Public School, try to import and balance scholastic as well as co scholastic activities in every student for his or her holistic development and bright future.

We are glad to share with you an array of talents of the students and the mentors who consider themselves lifelong learners. Scrolling down the pages you will realise that this magazine is an illuminating chronicle of our school. It provides an insight to the rich ethos of the school, the achievements and accolades earned in the scholastic and co scholastic spheres, the images within the pages that speak volumes about the enriching events, activities and celebrations held in the precincts of our school. We are sure that each reader will be able to identify every emotion that each page portrays and look upon this magazine as an entity in itself.

We extend our heartfelt gratitude to our honourable Principal Mrs. Rajesh Bano Preeya for her creative and valuable inputs that guided and navigated us in the fruition of this e-magazine.

Wishing all our readers and well wishers a memorable and happy reading!

The Editorial team

STUDENT EDITORS

Dear Readers

Welcome to the latest edition of 'Gyanodaya', the annual e-magazine of Gyan Mandir Public School. This publication is a testament of the hard work and creativity of students and faculty, and we are proud to share it with you.

Our school has been a nurturing home for young minds where our teachers act as gardeners and help us grow in every aspect of life. We are grateful for the opportunities and resources provided to us, which allow us to grow and thrive as individuals.

In this garden of learning, students not only reap the rewards of their hard work and dedication, but also discover untapped reserves of potential within themselves. This personal growth not only leads to academic success, but also helps them to develop a strong moral compass and a sense of purpose in life.

This e-magazine is not the product of an individual but of the combined efforts of our striving torch bearers, editorial team and young minds jostling with ideas.

Dear Readers

It gives me immense pleasure in bringing out the 2022-2023 Edition of our E-magazine, successfully. This magazine unleashes for the students a wide spectrum of creative skills that also involves designing the magazine.

I take pride in associating myself with the magazine by putting forth my creative expressions. I undergo the feelings that each page expresses and regard this magazine as a whole. This yearly publication has developed a distinct identity throughout the years. This issue has displayed varied tones and hues of the school.

This e-magazine highlights our accomplishments as a team. It is released in order to highlight the originality of our pupils with a hope that as you read through the events of 2022-2023, you will be able to perceive what might not be printed—the feelings.....and delight..... that are concealed in each page.

SCHOOL PREFECTS

My school life has been surely a learning experience for me. It is the place where I realised that I am unique. My school life is no less than a treasure for me which has given me invaluable joys of life. I will forever be grateful to my parents for choosing the best school for me, for friends that I have, the motivating teachers who have taught me and most respected Principal ma'am who trusted me with the responsibility of Head Girl and gave me a chance to lead the student council of Gyan Mandir Public School.

I would like to give a message to my fellow Gyanodians to have faith and confidence in their inner potential and their teachers. Dear friends the roots of education are always bitter but the fruit is very sweet. Don't lose hope in yourself and keep working hard..... Success will lick your feet one day.....

Shrestha Chamoli
(Head Girl)

I had entered my school crying, not wanting to let go off my father's fingers, scared of the new place and new people. But the warm welcome and an atmosphere like home I received in Pre- Nursery, is something I can never forget. My life at school made me learn something new almost every day. It helped me to gain understanding, build up confidence, explore my hidden talents not only in studies but also in co-curricular activities.

I remember sharing my lunch with my friends, participating in various activities, playing in the school playground, and what not.. I made mistakes but the best part is that I learnt from my mistakes. I am grateful to all my teachers for guiding me at every step.

I know that I shoulder a very big responsibility and I am thankful to my Principal ma'am and my teachers for trusting me as the Head Boy of this prestigious institution and shaping me as a leader.

At the end I would like to give a message to all my fellow students to have faith and confidence in themselves and in their teachers in setting a target and working with full dedication in order to fulfil their dream.

Hi everyone, I am Mother of Viraj Tomar.
 "My experience With the Gyan Mandir Public School is from last 8 years and I have been Very Satisfied as the School is Very progressive and growing. I am Very happy to see how my Child develops and grows and transform in to a real person. We were Surprised to see them raising children through performances and various activities." Congratulations to all the teachers and the whole team for organizing Such a Wonderful annual event. It was great to see all the kids confident and doing well. The physical activity was very good and well organized, and the active participation of all the teachers gave me a lot of confidence in the performance. It was Such a proud moment to see my child perform and learn with a great efforts of teachers.

Dear Gyanodiar family,

My experience with the Gyan Mandir Public School is since last 3 years and it has been very satisfying as the school is very progressive and growing. I am very happy to see my child evolve, grow and transform into the person he truly is. The way of nurturing the children through performances and different activities have overwhelmed us.

On 10th December, 2022, I was literally stunned and amazed looking at the magnificence of the Gyanotsav 2022 (Annual Day). The stage, the setup, the lights, the beautifully dressed children, the decor, the theme, the acts, the dances totally blew me away! Nothing less than witnessing a huge concert! We, as a parents, can never thank the teachers enough and appreciate their patience with children. It was an amazing show with beautifully choreographed dances, exceptional songs and great performances from one and all.

Gyan Tyot Award Ceremony and winter carnival were also amazing and so well organized and enjoyed by parents and children.

Gyan Mandir is a wonderful school where teachers teach children sincerely.

I'm Parent of VANSHIKA, Class VI-A.

The School aims at Contributing A 'HAPPY CHILD' to the Society. All the teachers are well qualified. All the teachers are more committed towards their profession and they work hard for the development of each student.

Apart from Studies, The Students are taught moral values and discipline. The Sports Teachers provide excellent training to help the students excel in their performance. The lessons explained is made easier through Smart Classes.

School provides the right atmosphere for children to grow.

Rayaan Singh

The teaching is fairly good and the teachers are friendly and vibrant. They also acknowledge that marks are nothing more than numbers, what really matters are what person you are in your life.

The teachers are great. They teach well and clarify all their doubts and the students are very friendly. The school also focuses on extracurricular activities like sports. They have a lot of plants and it's overall a very healthy environment.

The school also dedicated some time for hobbies development like dance, pottery, roller skating, learning musical instrumental etc. The school has students from every part of India so it's mixed and you will definitely find great people there. GMPs definitely focuses on studies but it doesn't pressurise the students in any way.

Annual Day celebration is also organised on a large scale. GMPs makes sure that every child gets an opportunity to showcase their talent.

I believe school should not only be for education but also to develop your strength and make yourself aware of your weakness, so in my view GMPs fulfills all the norms.

Our experience at Gyan Mandir Public School has been exceptional. The teachers are genuinely invested in my child's education and personal growth. The administration and management operate with out of the box thinking and take care of the holistic development of the child. Hence, along with ^{the} academics, there are many extra-curricular activities organized by the school. Last but not the least, they also focus on incorporating communication and leadership skills that help boost confidence of the children. This makes them a better person overall. I am very happy with the school's approach and education system.

My child Saradhya has been going to Gyan Handi Public School for almost a year now. Ever since the day my child joined this prestigious institution I am all praise for them. This institute looks after my 3 years child as if it is their own. Honestly while sending my child to the school I was a bit skeptical and worried for my child's well being and future. I am sure every parent feels the same when they send their child to the school for the very first time. All my worries were put to the back seat when I felt the positive changes in my child since after she joined GHPs. This institute looks after the overall personality development of the child. All these pen, tablet, sports day, festival celebration and other extra curricular activities have brought out the best in my child. I will always be grateful to GHPs especially Mr. Harpreet Singh for always motivating and encouraging my child to do her best in every field of life.

I am the Parent of Vrinda Tanwar of class VI-A. School is good in all respects. This is the first school related to money smart in Delhi. So many activities are held in school for students like road safety events, games etc. are a nice presentation. The school canteen also provides healthy food at minimum rates daily. Teachers are very hardworking here and all the students work like a team. The school has also given exceptional results in the academic sphere and the students have excelled in extra co-curricular activities too. The school has 100% of the students qualifying the examination.

School provides the right atmosphere for children to grow.

Gyan Handi Public School is like a bright ray of sun. Teachers here are very hardworking and take a lot of pain to enlighten the life of the students. Both our daughters study in Gyan Handi Public School. The atmosphere of the school is a lot like a caring family. Everyone is always ready for help any time.

A lot of activities and co-curricular activities are conducted on a regular basis to enhance the children's understanding. All required facilities are available here. All the activities conducted in the school actually help to bring out the true interests of students like in debates, quiz and extempore and also boost their creativity.

Not only this but there is a lot of emphasis given on students' academics. The teachers are always available online and offline, to clear students' doubt. Olympiads and other exams having national and international values are conducted all year round.

The school has really helped make my daughter independent & confident. The poem recitation competition, racing competition on sports event has helped her even more & she has understood that she has to learn & do her best without hesitation. The feeling of comrade, making friends, sharing things etc. has helped in her overall personality development. Recent winter festival organized by the school was fun too. Besides all other events, activities etc, she has also shown improvement in academics. Whatever my daughter has experienced & learned so far, I thank her mentor, her class teacher Harpreet Kaur.

Shobhit agarwal student in your school and he is trying to learn the lesson of English and Hindi. I am very happy and smiling very child to a great learner by following better education. I conclude his class teacher, however, I need very accurate guidance and help and she is always ready to help.

The assignments and course of this school for pre-primary are ^{more} advanced than the other schools of Delhi. Though the course is little bit rigorous, need more class discussion. This motivates children. The sports and co-curricular activities are being conducted regularly by the school, which develops strong character in its students.

I personally appreciate the efforts done by the class teacher in the teaching and making it more interesting by assigning other activities to my child. But, I have some concern about the language, the speaking of English in academics and need for improvement in the school atmosphere.

I am thankful to school fraternity for providing such good education to my little child.

I want to express my sincere gratitude for all the strenuous efforts the school has made for the growth and development of my ward Yashvi who is studying in Pre-Primary Section-B. The teaching staff of Gyan Mandir Public School are very good at nurturing and developing the children's academic skills as well as social interaction and productive play. I, at times, feel a bit jealous from mentors of the Gyan Mandir Public School because of the kind of care and support being provided by you all which I being parent is till date not able to provide to my child.

Dear Ma'am

I would love to inform you that school is doing great for children holistic development as the teachers are so supportive and helpful for my child academic progress. Also my son loves the sports activity organized by the school. GMPs is good in co-curricular activities such as dancing, singing and speaking skills and soon. My child is always so excited to participate in co-curricular activities such as "Gyanotsav" (Annual function), Grand parent's day celebration etc.

Overall GMPs is good for my child's holistic development

Thank you

PARENTS' CORNER : OUR PARENTS HAVE A LOT TO SAY.....

Both of my children have been studying in Gyan Mandir Public School since nursery class. The faculty is very well trained. And numerous co-curricular activities are available too. The teachers are very helpful. They always support the students. My children are very well groomed under the guidance of the experienced teachers. I am really grateful towards the teachers for their support to the children. The students also get the opportunity to participate in various competitions at national and International level too. In addition to this, many events also take place at the school. Like sports day, annual day, and carnivals. These events are really interesting for students, parents and teachers too.

Dear Mam,

My child is studying in school from past one year. I am very satisfied by seeing improvement and remarkable confidence level in my child's overall personality development, speaking skills and physical activity. I am very happy to see my son the way he is learning and growing up. Teachers are very loving and affectionate.

Different activities organised by your school has given an opportunity to my son to develop. I wish you to keep growing in this way.

My son Avi Sharma is a student of class VIA in Gyan Mandir Public School. I really feel that he is blessed to be part of such a great institution. The kind of personal attention which is given to all students is commendable. If we talk about faculty, they all, from teachers to other staff members, everyone is very cooperative and helpful. Teachers are highly educated and explain each and everything in detail and are always ready to help. The school keeps motivating kids by organizing different co-curricular activities which makes them all sounder. Different events like the great show at Talkatora Stadium, Sports days etc are organised time to time to keep the students active.

Mother's Day Celebration

'A Mother is one who can take the place of all others, but her place no one else can take'. Mothers have the magic wand to heal all wounds, make the things happen..... and the woes disappear.....' The students celebrated this special day in a very emotional and affectionate manner. They expressed their soft corners for their mothers in a myriad way. Many activities were conducted. Students of Nursery & Prep prepared 'Photo frames', classes I&II crafted - 'Best Mom - Flowers' on sticks, and the others got engaged in making badges based on the topic 'My Mother....My Life...' The students of Middle department got involved in 'Cooking without Fire' activities and prepared a number of health friendly dishes which their mothers relished.

Enthusiastic students with 'Best Mom - Flowers' on sticks.....

GRANDPARENTS' DAY CELEBRATIONS: 'Grandparents', the very word reminds one and all of the second childhood stage of our life. Grandparent's Day was celebrated with much enthusiasm . Children share a special bond with their grandparents and this bond strengthens when grandparents and grand children celebrate special occasions together.

Second childhood..... Grandparents rejoicing their day to the tunes of Bollywood numbers.....

The school celebrated its **OPEN DAY, 2022-2023** on 30th July 2022 on the theme, **'EK BHARAT, SHRESHTH BHARAT**. One could witness an array of activities in every nook and corner of the school. Such programmes are an integral part of the school curriculum as they provide opportunities to learn beyond classrooms and books and indulge in learning by doing. The exhibition showcased the talents of the students in every sphere, be it art, craft, music, language, history, literature or science. The best outcome of such integrated and interdisciplinary events is that it provides a meaningful insight to learning by students of every calibre.

Raksha Bandhan Celebration Raksha bandhan, a festival of unique bond of relationship, was celebrated in a superb way this year i.e. by tying Rakhis to our backbone, the supporting staff of the school and thanking them for their support. The kids of the school also visited the nearby MCD school and tied Rakhis to the students and were instrumental in bringing happiness to their faces. The tiny tots presented a spellbinding performance by singing the special 'Raksha Bandhan' song which touched the hearts of everyone present there. It was a mesmerising and joyous experience..... seeing is believing..... for everyone.

Students tied Rakhis to the supporting staff and thanked them for their support.

Janmashtami Celebration

कर्मण्येवाधिकारस्ते मा फलेषु कदाचन..... (तेरा कर्म करने में अधिकार है इनके फलों में नहीं)

With this sentiment and message the students celebrated the birth anniversary of the preacher of Karma, Lord Krishna. Some of the students dressed up as Lord Krishna and Radha and performed a dance based on the song 'Krishna Murli Bajaye.....' which left everyone mesmerized. Finally, the day came to an end with students leaving with a peacock studded crown on their heads to remind them of the grand celebrations.

INDEPENDENCE DAY 2022-2023:

*Bharat Humko Jaan se pyara hai..... Subse Pyara Gulistan hamara hai.....
Bharatvasi hain hum Ye Shaan se Kahenge Hum.....*

Sometimes it's not the song that makes us emotional, it's the people, the memories, the scenes associated with it that fills us with gratitude and pride.....The 15th of August 1947 dawned, bearing an opportunity for India when Independence and Freedom became a reality to the struggle, sweat and sacrifice of thousands. The staff and students of Gyan Mandir Public School celebrated the History, Hope and Honour of India with creativity being the 'glorious ornament' of this year's Independence Day. Together we pledged to take 'BHARAT'- HAMARI JANAMBHOOMI to new heights..... Vande Mataram

TEACHER'S DAY : "Teachers should be the best minds in the country" is what the former President Dr. Radha Krishnan believed.....

On 5th September various cultural programmes were organised to mark the importance of the day. The intent behind this celebration was to recognise the contribution of teachers who are not just mentors but *Gurus* in the true sense.

Diwali celebration

Diwali, the festival of awakening..... from darkness to light.....was celebrated in its real sense. The corridors became the testimonials as every nook & corner was decorated with balloons, festoons and other decorative materials. Some students appeared in traditional Indian attire. Children of the Pre-Primary department decorated Diyas while the students of Nursery decorated candles. The students also made paintings based on Diwali. The entire atmosphere echoed with gaiety.

Students with the self made diyas....., admiring their art & calibre

Christmas celebrated.....

Christmas, a synonym of goodwill & charity, was celebrated with much festive fanfare, especially in the Pre-Primary department. The enthusiastic students came dressed up in party dresses, some of them even as Santa Claus to rejoy the spirit of the festival. They participated in the activity 'pasting cotton in Santa's cap' and enjoyed a lot. The students got photos clicked with a takeaway of Santa's cap and went home merrily singing and dancing to the tune of Christmas carols.....

Cock House..... House Trophy

The House System in school provides opportunities to students to develop all aspects of their growth and learning be it personality, morality, creativity, knowledge or skills. To inspire a healthy sense of competition, each student of the school has been allocated one of the four Houses which symbolise school values. Students develop a sense of belongingness and a feeling of unity of being a part of a specific House. Inter House competitions not only give the students a chance to display their talent but also help them learn valuable lessons on teamwork. Be it a debate, quiz, dance or sports events the students give their best to win the 'Best House Trophy'. The coveted 'Best House Trophy' kept the students engaged until the last moment. Jagriti House emerged as the 'Champion House' of the session.

INTER-SCHOOL COMPETITIONS

SAFE MOBILITY 2022-2023:

Reckless driving just may be your ticket to some place out of this world!

We at Gyan Mandir Public School believe in nurturing values in our students so that tomorrow they can grow up to become responsible citizens. One very important step in this direction is to teach these future citizens life skill techniques. At a very early age we have an important life lesson to learn as well as impart, i.e to make a positive contribution by making our community a safer and more eco-friendly place to live and work. Adults must not forget the fact that '*children will do what we do*'. Even if the children are far from the driving age, demonstrating now the behaviour we'll expect later from them will set the right example concerning the use of mobile phones and always being mindful of the others using the road.

ABHIVYAKTI : Abhivyakti i.e. 'Self Expression' is an annual event that unfolds an array of interschool competitions every year spreading social messages enabling meaningful learning. This year too students from different schools across the city participated in the online as well as the offline competitions. No doubt today's children have a lot of creativity, talent and potential hidden inside them and inter school competitions such as 'Abhivyakti' provide them the platform to exercise these skills.

WORKSHOPS /WEBINARS

TEACHERS' & STUDENTS' WORKSHOPS

With the advent of technologies, the education sector has undergone a sea change. To keep pace with the evolving teaching-learning landscape, teachers and students need to keep abreast of the latest happenings in the field. Unlike previous generations, generation Z is now living in tech age, harnessing the benefits of burgeoning globalization, high-end innovations and socio-economic development. Workshops for teachers and students are conducted on a regular basis to equip them with advanced skill-set.

Workshops & Webinars, both Online and Offline, are an integral part of educating the young minds in our school. The management of the school keeps organising such Workshop /Webinars on various topics on a regular intervals for both the students and their mentors to chisell and upgrade their knowledge as learning is a continuous process and is not confined within the four walls of the institution

CAPACITY BUILDING PROGRAMMES ORGANISED BY THE C.B.S.E FOR TEACHERS

CBSE Programmes for Teachers are the foundation on which a quality education system rests, the Board, through its various endeavours, aims at improving teacher quality. The principles laid down in the National Curriculum Framework of Teacher Education and the Right of Children to Free and Compulsory Education Act, 2009 emphasise that continuous teacher training has a crucial role to play in the overall framework of quality education. Teachers of GMPs attended these CBPs from time to time for their personal growth as well as for contributing in a holistic way to the teaching learning process.

PARENTS' WORKSHOPS

Parents are expected to be perfect in the art of parenting, but sometimes we realise that they require some training, counselling, and workshops to learn the fundamentals of effective parenting. The benefits of parent involvement in schools include better participation and contribution to the development of their children. Our school conducts parents' workshops to educate parents about good parenting skills.

'SEL is Like the Heartbeat of the Classroom'

As we open the doors of the school to welcome our students after two years of online teaching, we are overwhelmed by the motley of emotions and thoughts. Our primary focus should be on the Socio Emotional Learning (SEL) of students. SEL is like the heartbeat of the classroom and therefore, it is imperative to make the children feel safe and secure before we get to the academics. We probably need Education 5.0 - the Humane Education which amalgamates the heart, head and the hands with special emphasis on heart. The other important focus area should be to bridge the learning gaps that have arisen. We should target to assess the gaps in the expected learning levels and the existing learning levels of the students and address them in a planned

and systematic manner. Special Bridge programmes should be planned with emphasis on key concepts in all subjects. With the aid of state-of-the-art physical and technological infrastructure and well qualified and experienced educators,

Gyan Mandir Public School works towards cultivating a scientific temper in students, encouraging them to invigorate the latent potential of their minds and find innovative solutions to contemporaneous problems. Our ingrained ability to strive for a richer and more prosperous world, to adapt ourselves and keep pace with the demands of time and to relentlessly align our actions with our vision, shall further drive us to promulgate the noble cause of education and shape the future generation of discoverers, inventors and innovators.
